Scandivan

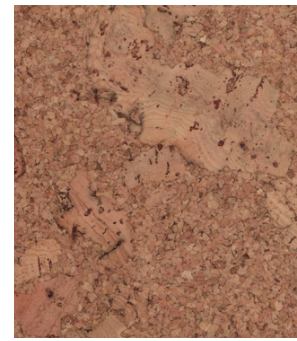

Choose your laminate

Our conversions use laminate for worktops and drawer faces, creating a versatile and hardwearing surface

Abrasion, impact and scratch resistant; this material offers protection in the areas that need it the most

Our range of muted colours sit perfectly with the poplar plywood and match our options for the flooring and textiles. Choose a colour that suits you

Wider colour range available on request

Choose your living area flooring

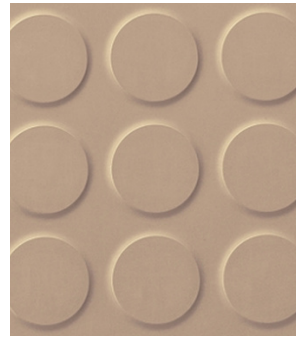

Our two main flooring types are Corka and Marmoleum. They both offer good appearance, heat retention and a natural feel. Both materials are soft under foot

All our flooring is finished with a tough protective coating, which is **durable** and fully **waterproof**

Corka
Co2 neutral

Marmoleum
Marmoleum is 97% natural raw materials and Co2 neutral

Polyflor Tile Range

Choose your garage area flooring

Rubber floor tiles offer an attractive **hardwearing** floor, which can withstand wear and tear

The tiles are **slip resistant**, to help keep your garage contents in position. The rubber also has **sound proofing** qualities
